

COLOR CAREER INDICATOR 4.0 TEST RESULTS

This extensive evaluation gives career path clarity. With record-breaking accuracy, it identifies "Your Most Fun Careers" from among more than 1,000 occupations. A specific, ranked list of your top 50 jobs eliminates any need for interpretation. A "More Info" link next to each listing offers everything you need to know.

Don't reject recommendations that seem below or beyond your capabilities. Instead, view them as guides to better understanding your most successful career path. Relish the fact that the listing can expose/introduce you to actual careers, even those you know nothing about. This discovery alone has astounding potential.

WELCOME JANE DOE !

This evaluation scientifically predicts career satisfaction, not on-the-job performance. Recognize each career listing as an enjoyable skill-set.

HOW TO BEST USE THE TEST

High-Growth Careers Recommended: List directs you towards careers with the most opportunities/job openings.	No Interpretation Required: Unlike other personality tests which indicate personality work traits, this evaluation identifies actual occupational titles.
Unbaised Career Paths: This non-language test recommends careers beyond your Job market knowledge or self-perception.	By-Occupation Info: A "More Info" link system delivers the facts you need to insure the best career path investment.

SELECT ONLY THE HIGH-GROWTH OCCUPATIONS

Getting that perfect career is something of a gamble. Increase your odds of winning by selecting only the high-growth job descriptions indicated on your report.

CREATE A SUCCESS-DRIVEN MINDSET

When you feel confident about your future, others respond with positive offers of opportunity and support. Below find ways to create a successful mindset.

SELECTING THE BEST CAREER

Imagine you are actually working in each listed occupation that's of interest. Ask yourself, "Would this job be fun and easy to do or learn? If so, it's the best path for YOU!"

Studies have proven that being passionate about your profession is the foundation of success. Not only that, it makes your day less stressful --more fun!

USING THE CAREER INFO LINK SYSTEM

As you read about your Top Careers, click on each "More Info" link. Avoid assumptions. Get the facts before you invest your time and educational funds.

Employment Overview

- Gives the total number of jobs by-occupation and overall work/task descriptions.
- Forecasts the future labor force and characteristics of each profession.
- Describes each career's highlights and most important points, including industries, states, or occupational specialties that offer the most jobs.

Training, Qualifications, and Advancement

- Describes the education and training generally required to enter the occupation.
- Highlights the most significant points and advancement opportunities.

Job Outlook

- Discusses the projected change by-occupation and the economic factors that are driving job growth or decline.
- Describes job market competition and any education, training, or personal characteristics that will improve your career prospects.

Earnings Section

- Provides statistics on median earnings as well as earnings of workers in both the top and bottom 10 percent.
- Earnings adjustments by-experience, qualifications, industry, and geographic location.

Work Environment

- Work Values and Styles that will affect your performance.
- Specific tasks, working hours, risks, or other drawbacks.

Related Occupations/Associations

- Lists other occupations with similar job duties or other characteristics.
- Networking list of outside associations and organizations by-occupation.

HOW AND WHY IT WORKS

CAREER PATH CLARITY

Instead of asking questions like, "Do you want to be a Writer, Engineer, or Farmer?" and then essentially reporting back your answer, this evaluation mines the personality traits of 1,000 different professions to determine your most enjoyable occupations.

- **High-Growth Careers Recommended:** List directs you towards careers with the most opportunities/job openings.
- **Unbiased Career Paths:** This non-language test recommends careers beyond your Job market knowledge or self-perception.
- **No Interpretation Required:** Unlike other personality tests which indicate personality work traits, this evaluation identifies actual occupational titles.
- **By-Occupation Info:** A "More Info" link system delivers the facts you need to insure a the best career path investment.

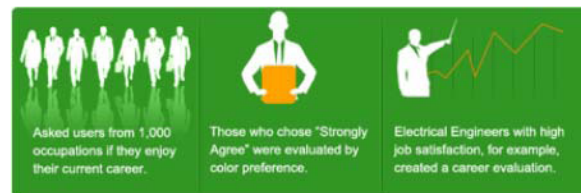

IS IT ACCURATE?

The Color Career Counselor is the world's most reliable test—over 80% accurate for top listed skills.

- Test calculated from a sample base of 750,000+ to determine 1,000 occupations.
- Unlike other tests, asks no abstract questions, makes no erroneous assumptions.
- Previous publication in the *North American Journal of Psychology* (Dec. 2008). http://www.deweycolorsystem.org/files/DCS_23.pdf
- *USA Today* Top CEO independent survey revalidated the Color Career Indicator, 4.0 CEO listing at 96% and the General and Operations Manager listing at 94%.

HOW DID YOU CREATE A NON-LANGUAGE TEST?

750,000 online users were evaluated. See below.

WHY THIS TEST MORE THAN OTHERS?

Unlike others, this test requires no job market knowledge. But that's only the beginning of what makes it unique.

- **Record-Breaking Accuracy:** More accurate information--higher than any test.
- **Fast, Fun Evaluation:** Test only takes 2 minutes vs. 40 minutes for other tests.
- **No Second-Guessing:** Recommends 50 job descriptions.
- **Unbiased:** A separate study shows that race has no color preference bias.
